

AGENDA FOR THE CITY OF BARABOO PUBLIC SAFETY COMMITTEE

Members noticed must notify Committee Chairman Kolb at least 24 hours before the meeting if they will not be able to attend.

Date and Time: Monday, June 14, 2021 – **1:00 P.M.**

Location: City Services Center – 450 Roundhouse Court, Baraboo, WI

Members Noticed: Tom Kolb, Phil Wedekind, Michael Plautz

Others Noticed: Administrator C. Bradley, Mayor R. Nelson, Police Chief M. Schauf, Fire Chief K. Stieve, City Engineer T. Pinion, Utility Superintendent W. Peterson, Street Superintendent T. Gilman, BDAS Chief Caleb Johnson, and Library.

1. **Call to Order**

- a. Note compliance with the Open Meeting Law.
- b. Roll call.
- c. Approve agenda.
- d. Approve minutes of March 29, 2021 Public Safety Committee meeting.

2. **Action Items**

- a. Consider Alliant Energy's request for a 12-foot wide utility easement for natural gas on City-owned land on the south side of the City Service Center campus, between S Center Street and Briar Street.
- b. Review and recommendation to add two new street lights on the east side of the 1300 block of Lake Street, between its two intersections with Springbrook Drive.
- c. Review and recommend public access from STH 33 to the proposed subdivision development on the City-Owned property (a/k/a the Jackson Farm) on the south side of STH 33, approximately 1/4 mile east of CTH T.
- d. Review and recommend approval of the Water Resource Recovery Facility's 2020 Compliance Maintenance Annual Report (CMAR).
- e. Review and approve proposed revisions to Utilities Fees on City's Official Fee Schedule.
- f. Review and approve the School Resource Officer Memorandum of Understanding between the City of Baraboo and the Baraboo School District.
- g. Review and approval of monthly Billing Adjustments/Credits for Sewer and Water Customers for March, April, and May 2021.

3. **Information Items**

4. **Reports**

- a. Utility Superintendent's Report
 - i. Staffing updates
 - ii. Project updates

- b. Street Superintendent's Report
 - i. Staffing updates
 - ii. Equipment Updates
 - iii. Monthly Report on Public Works Department activities

- c. Police Chief's Report
 - i. Staffing Update
 - ii. Case/ Response Update

- d. Fire Chief's Report
 - b. Monthly Incident Report
 - c. Building Remodel Update
 - d. Staffing updates

5. Adjournment

Tom Kolb, Chairperson

Agenda Prepared by Kris Denzer
Agenda Posted by Kris Denzer on June 09, 2021

PLEASE TAKE NOTICE that any person who has a qualifying disability as defined by the Americans with Disabilities Act, that requires the meeting or materials at the meeting to be in an accessible location or format, should contact the Municipal Clerk (101 South Blvd or phone 355-2700) during regular business hours at least 48 hours before the meeting so that reasonable arrangements can be made to accommodate each request.

FOR INFORMATION ONLY, NOT TO BE PUBLISHED

MEMORANDUM

City of Baraboo

Date: June 08, 2021
To: Public Safety Committee
From: Tom Pinion
Re: Background for the June 14th, meeting @ **1:00 pm** – **City Services Center**

ACTION ITEMS:

Item A. Alliant Energy is in the process of updating their network of natural gas supply in the City and they are requesting an easement from the City to cross the City-owned property on the south side of the City Services Center between S Center Street and Briar Street. The proposed Natural Gas Easement agreement and corresponding map are included in the Agenda Packet.

Item B. Several residents of the 1300 Block of Lake Street have inquired about the lack of street lights between the two intersections of Lake Street with Springbrook Drive, citing the addition of several new dwelling units along the west side of that block of Lake Street. I have attached an aerial photo of that area and identified the existing street lights with an **E** and two new proposed street lights on the east side of lake street on existing power poles with a **P**. I have requested a price from Alliant and hope to have the cost estimate at Tuesday's meeting.

Item C. The City is working with a developer on a mixed-use residential development on the former Jackson Farm property. Included in the packet is the latest conceptual development plan for that property. Staff has reviewed several version of the concept plan and is convinced that two public access points to STH 33 are critical from a public safety perspective in spite of the DOT's reluctance to approve both of them. With roughly 300 residential dwelling units, restricting the development to a single public access point would create a significant safety concern, similar to the concern surrounding the single public entrance to the +/- 400-lot Black Hawk Manor mobile home community.

Item D. The annual Compliance Maintenance Annual Report for the Water Resource Recovery Facility has been completed and the "Report Card" and corresponding Resolution for the Council's consideration are included in the packet. As you can see, Staff continues to do an excellent job operation our facility.

Item E. As a result of the new Water Rate Increase that was approved by the Public Service Commission on May 12, 2021, the fees listed on the City's Official Fee Schedule need to be updated. Included in the packet is a red-lined version of the applicable part of the Fee Schedule along with corresponding resolutions for the revisions. Although not part of the Water Rate Increase, we are recommending an increase to the Reserve Capacity Assessment (RCA) for new connections to the Sanitary Sewer. It has been more than 20 years since that rate has been adjusted and the proposed \$650 fee corresponds to the RCA fee established in the existing Agreement with the Town of Baraboo Sanitary District No. 1 for new connections to the sanitary sewer.

Item F. The Police Chief is requesting the Commission review and approval of the MOU with the School District for the two School Resource Officers. This is reportedly being updated to reflect recent statutory changes. A red-lined version of the MOU is included in the Agenda Packet.

Item G. This is the standing agenda item to review and approve monthly utility billing adjustments. The adjustments for March and April 2021 are included in the packet. There were no billing adjustments in May.

INFORMATION ITEMS:

None

See you Monday at **1:00 PM !**

Minutes of the Public Safety Committee Meeting – March 29, 2021

Members Present: Phil Wedekind, Tom Kolb and Mike Plautz. **Others Present:** Tom Pinion, Rob Sinden, Tony Gilman, Wade Peterson, Kevin Stieve, Ann Burton, and Kris Jackson.

Call to Order - Committee Chairman Phil Wedekind called the meeting to order at 1:00 P.M. at Baraboo City Service Center. Compliance with the Open Meeting Law was noted. It was moved by Kolb, seconded by Plautz to approve the agenda as posted. Motion carried unanimously. It was moved by Plautz, seconded by Kolb to approve the minutes of the February 22, 2021 meeting. Motion carried unanimously.

Action Items

- a. Consider adding signage and possible traffic control measures for the Hill Street railroad underpass – Ann Burton addressed the Committee on behalf of the owners of the Hill Street Condos about their concerns regarding safety primarily for pedestrians. Burton's full report with attachments has been a part of the minutes. The Condo Association asked the Committee to consider speed humps, signage to slow traffic for pedestrians, possibility of closing road to vehicle traffic, and possibility of crosswalks across Manchester at Effinger, Manchester at Mill Race, and Mill Race at Hill Street. Pinion said that the cost of constructing a separate pedestrian underpass, or overpass would be very expensive. Pinion said that he consulted with the City's insurance provider and discussed the situation and the potential changes to the existing signage. Their response was "the signage that has been proposed adequately addresses the concerns that have been brought to the City's attention by the residents in the area". Pinion would be an advocate to discourage pedestrian traffic. Kolb likes the yellow and black signs and feels the City should cautioning about pedestrians. Timed flashing lights were discussed as a possible solution, the cost is \$20,000. Kolb feels that timed flashing lights is not a reasonable cost in a place that has had no pedestrian or vehicle accidents; however, he feels that something more needs to be done. Kolb likes the black and yellow sign stating Pedestrian Traffic, Slow Down, 15 MPH, and he would like it placed as close to the viaduct as possible on both sides. Plautz agrees. Kolb asked Gilman his thought on speed humps. Gilman said he is not a fan the way the road is he does not feel it is a good idea, he feels speed humps should be kept on a level surface. Kolb would also like to have the suggested crosswalks painted. After a lengthy discussion, Kolb moved to adopt the black and yellow Pedestrian Traffic/Slow Down/15 MPH sign. Pinion asked if the Committee still wanted to convey Yield To Oncoming Traffic. It was the consensus of the Committee to have a sign conveying that message also. It was stated that both sign could be placed on the same signpost and installed closer to the underpass. Kolb amended his motion to include Yield To Oncoming Traffic cautionary sign. Plautz asked if his motion included the crosswalks. Pinion said that the crosswalks were not on the agenda, but they would be taken care of. Plautz seconded the motion. Motion carried unanimously.
- b. Consideration of Proposals for Engineering Services for CTH A Water Tower Coating Rehabilitation – Peterson said that proposals were sent to five firms, two of which chose not to participate. He said that three responding are all reputable firms, all having good packets. MSA Professional Services was low bidder at \$26,400. It was moved by Kolb, seconded by Plautz to award the Engineering Services for the CTH A Water Tower Coating Rehabilitation to MSA Professional Service for \$26,400. Motion carried unanimously.
- c. Review and recommendation of 2021 Alley Reconstruction projects – Pinion said that there is money in the 2021 budget allocated for alley reconstruction. Kolb said that he would like to have #5 alley moved to #3. Plautz moved, Kolb seconded to reconstruct the following alleys:
 1. Between Lynn St. & Baraboo River, Lynn to Walnut (325 Lynn Street Project)
 2. Between 2nd and 3rd Avenues, West to Center.
 3. Between 6th Avenue and 7th Avenue, Birth to West.
 4. Between Summit and Wood, 9th to Summit (North/South Section)
 5. Between 11th and 12th Streets, East to Ash.Motion carried unanimously.
- d. Review and approval of monthly Billing Adjustments/Credits for Sewer and Water Customers for February 2021– It was moved by Kolb, seconded by Plautz to approve the monthly Billing Adjustments/Credits for Sewer and Water Customers for February 2021. Motion carried unanimously.

Information Items

- a. Update on status of Water Rate Adjustment application – Peterson said that he received the final packet with an overall rate increase of 49.27%. He said that the increase would affect everyone differently. Peterson explained the increase and reasons

for increase. Peterson clarified that this rate increase is only the water portion of the bill. Peterson said after September 10, 2021 there would no longer be an agreement with West Baraboo. Peterson said that the Utility is losing approximately \$80,000 per quarter with the rates at this time. Peterson said with the rate increase the Utility moves from being the lowest in the County to third or fourth, and with all of the Class A & B's they would move from being the fourth lowest to not even the middle of the pack. Peterson said that the new rates would take effect July 1, 2021; residents will see it on October 1, 2021. Peterson said that the Utility was paid from LSC

Reports

- a. Utility Superintendent's Report
 - i. Staffing Updates – No report
 - ii. Project Updates – Peterson said that all WRRF Fiber project equipment is here, L.W. Allen and County MIS are working on the programming of the new switch. He said that he hopes to see this completed in the next few weeks. He said that new auditing firm would be here next week. Peterson said the DNR informed him to get all of the paperwork read for another principal forgiven loan; the official notice should come in early April. He said \$99,000 was requested to complete approximately 30 private services.
- b. Street Superintendent's Report
 - i. Staffing Updates – Pinion said that the department is still splitting shifts.
 - ii. Equipment Updates – Gilman said that the new 2020-plow truck came in and is in the parking lot for the Committee to view after the meeting.
 - iii. Monthly Report on Public Works Department – Gilman said that the Department was significantly under the salt/sand use, due to the winter. He said that the mild spring has given the opportunity to begin street sweeping. Brush site closure has been going well, citizens are calling in daily and when 10 or 12 are on the list a crew will be sent out to pick up. Gilman said since the first of the year there have been six offenders, and none of them are illegal dumping, they are brush; therefore, it is more of an education that the City will pick up curbside. He said the department performed a couple unscheduled stormsewer repairs and have been patching streets on an as needed basis as weather permits. He said that the department has been assisting Parks/Forestry with re removal and stump grinding will begin next week. He said that leaf pickup begins on April 12.
- c. Police Chief's Report
 - i. Staffing Update – Sinden said that there is one detective's position that is vacant and they anticipate filling that from within the ranks in July. He said that the department was very fortunate in their last application go around to have some very good quality candidates. He said that the individual who will be hired because of that promotion has been contacted. Sinden said that the Department's biggest challenge would be maintaining staff. Sinden said that the Department has trained 19 police officers, 2 CSO's, and 2 administrative assistants since 2012. Sinden said that resident contact stops due to COVID, but the events did not stop. Sinden said as it relates to staffing in the future, he knows that is will be a challenge and that they have to continuously reinforce to the public here in Baraboo that the department is transparent and wants to be open and honest with the public.
 - ii. Case Response Update – Sinden said that the report in the packet would get better as the program progresses. He said he would like to work toward reporting trends instead of just numbers. Sinden said that the department is working to get back to some type of normalcy as it pertains to COVID. He said that they are trying to slowly increase their contact with citizens
- d. Fire Chief's Report
 - i. Monthly Incident Report – Stieve said that the Incident Report would be in the Council packet next Monday.
 - ii. Building Remodel Update – Stieve said the building remodel is complete and the process of EMS Operations moving in is nearing. He said that he would like the Committee to come up sometime to see what is going on, possibly the next meeting could be held there.
 - iii. Staffing updates – Stieve said that they have a fluid staffing process as well. He said they did add one person in March and a couple will be leaving in the near future.

AJOURNMENT – It was moved by Plautz, seconded by Kolb to adjourn at 2:17 p.m. Motion carried.

Respectfully submitted,

Phil Wedekind, Chairman

My name is Ann Burton and I'm speaking on behalf of the owners of the Hill Street Condos about our concerns regarding safety primarily for pedestrians as they pass on Hill Street between the sidewalk that ends at our common driveway and starts again sidewalk at the Dog Park, especially in the area the railroad bridge underpass.

The City has done much to improve the area by establishing a wide variety of recreational options. These improvements are wonderful and are greatly appreciated.

As a natural result of these improvements, however, traffic volume has increased and pedestrian traffic has greatly increased. Residents in our area have witnessed many close calls in cases where vehicles are traveling too fast for conditions when pedestrians are present.

We realize that this area has not had a history of vehicular accidents reported and attribute that to drivers yielding to other cars. There are drivers, however, who, not seeing another vehicle approach, speed through the underpass causing danger for anyone that might be passing through on foot or bike.

I've talked with Tom Pinion three or four times about this, and others in our association have written letters and expressed concerns to Tom, the mayor and our council person over the last few years. Signs were put up a few years ago advising a speed of 15 mph and of the road narrowing. These are helpful but have not had a sufficient enough impact.

In February and March committee memoranda and emails to others, Tom Pinion had suggested that "No Pedestrians" signs be posted. Our condo group is adamant in our opposition to this idea for a number of reasons including providing access to the recreational area by South Side residents, placing liability on pedestrians rather than unsafe drivers, and all having full knowledge that pedestrians will continue to use the route.

Minutes from the February's Public Safety Committee Meeting indicate the committee discussed this issue and moved to add "yield to oncoming traffic" signage. Residents of our condos, however, feel that additional signage should instead advise drivers to slow down and watch for pedestrians. Some possible signs of this type are shown on the attached page.

In addition to this type of signage we would ask the committee to consider further options to improve safety for pedestrians. In conversations with Tom Pinion he has mentioned flashing lights to warn drivers of oncoming traffic, but

said they are expensive. Again, we feel these would be aimed at improving vehicular rather than pedestrian safety. Rumble strips were also mentioned as a possible way of slowing traffic, but these can be noisy and wear down over time.

Speed humps on either side of the tunnel could be very effective in slowing traffic thus improving safety for both pedestrians and vehicles. Since Hill Street is not a "straightaway" the effectiveness of speed humps here would differ from the one on Manchester.

And finally, there is the possibility of closing the street to vehicular traffic. Others have suggested this, and our association would certainly not be opposed to it.

I spoke with Roy Franzen, Chair of the Parks Commission, on March 15 about our concerns. Roy stated the Commission has talked about access and safety issues as well, but the matter now being discussed is not his Commission's issue to be solved. He did say that he feels speed humps would be helpful.

The website of the US Department of Transportation Federal Highway Administration has a section on Safety. In it there is information under "Traffic Calming" about speed humps (see attached). These are typically 3" high and 12' in length along the vehicle travel path axis. As you will read in the copy I've attached, under "Effects and Issues" is stated:

"Speed effects of a single or series of speed humps are greater than for any other traffic calming measure with the exception of route diversions that eliminate a particular traffic movement."

In conclusion, our emphasis is to create safer conditions for pedestrians passing through this area, rather than mitigating auto collisions. We ask the Public Safety Committee to improve safety for pedestrians in the area by taking further action, both through signage and other methods, that will more effectively slow traffic in the underpass area.

Thank you.

In addition to the above mentioned concerns, the Hill Street Condo Association is requesting that, also for pedestrian safety, crosswalk lines be painted on the pavement at three locations in the area:

- across Manchester at Effinger*
- across Manchester at Mill Race*
- across Mill Race at Hill*

(See attached air photo.)

Signs that warn drivers to slow for pedestrians

Safety

Traffic Calming ePrimer – Module 3

3.9 Roundabout

DESCRIPTION AND GENERAL PURPOSE

A roundabout is an intersection design that contrasts with designs that require traffic signal control or stop control. A roundabout is often used as a replacement for a signalized intersection. A small modern roundabout and mini-roundabout are similar (presented as a separate traffic calming measure in section 3.8 of this ePrimer [provide link]).

A full roundabout is typically appropriate only at the intersection of two arterial streets or of an arterial street with a collector street. The full roundabout does not generally fit within the footprint of lower classification street intersections.

A roundabout is sized to accommodate all large vehicles circulating the center island and the center island is non-traversable.

A roundabout provides a horizontal deflection with an island at the entry point and requires every vehicle to follow a circuitous path no matter which departure leg of the intersection is the destination (as illustrated in Figure 3.9.1). As a result, traffic speeds are moderated (note: even though overall delay per vehicle may be reduced in comparison to a signalized or stop-controlled intersection).

The roundabout is included as a traffic calming measure in this ePrimer because it can be used to change the operating character of a roadway as it transitions from a higher-speed operation to a lower-speed operation within a higher-density community with more pedestrian presence.

The reader is referred to *NSHRP Report 672, Roundabouts: An Informational Guide* for a thorough description of roundabout characteristics, applicability, effectiveness, and design issues.

A complete description and design considerations for a roundabout is presented in *NCHRP Report 672, Roundabouts: An Informational Guide*.

The MUTCD has sample striping layouts for single, multi-lane, and hybrid roundabouts.

3.10 Speed Hump

DESCRIPTION AND GENERAL PURPOSE

ITE has developed a recommended practice entitled *Guidelines for the Design and Application of Speed Humps*. Further guidance and clarification can be found in that publication.

A speed hump is an elongated mound in the roadway pavement surface extending across the travel way at a right angle to the traffic flow (see Figure 3.10.1). A speed hump is typically 3 inches in height (with applications as high as 4 inches) and 12 feet in length along the vehicle travel path axis (note: a *speed hump* that is 20 feet in length and flat in the middle is considered a *speed table* in this ePrimer).

At typical travel speeds along a residential street or in a small commercial business district, a speed hump produces sufficient discomfort to a motorist driving above the speed hump design speed to discourage speeding. It encourages the motorist to travel at a slow speed both upstream and downstream of as well as over the speed hump.

[A speed hump is also referred to as a road hump or undulation.]

[What's the difference between a speed hump and a speed bump? A speed hump is typically 12 feet in length (in the direction of travel), between 3 and 4 inches in height, and is intended for use on a public roadway. A speed bump is much shorter, between 1 and 2 feet in length (in the direction of travel). A speed bump can be as much as 6 inches in height. A speed bump is typically found in a parking lot or commercial driveway, but not on a public roadway.]

The initial speed hump applications were similar to the 12-foot speed hump, characterized in this section of the ePrimer. Variations in length and shape were applied and were initially considered speed hump variations. As the 20-foot measure became a standardized size and shape, it became known as a speed table. The reader is cautioned that when reviewing literature, design standards, and effectiveness analyses for speed hump, what is included within the umbrella of "speed humps" has varied over time.

[Five field studies of 51 speed humps measured crash reductions between 33 and 48 percent (Source: FHWA, Engineering Speed Management Countermeasures: A Desktop Reference of Potential Effectiveness in Reducing Crashes, July 2014)

http://www.safety.fhwa.dot.gov/speedmgt/ref_mats/eng_count/2014/reducing_crashes.cfm

[Seven field studies of 199 speed humps measured reductions between 6 and 13 mph for 85th percentile speeds (Source: FHWA, Engineering Speed Management Countermeasures: A Desktop Reference of Potential Effectiveness in Reducing Speed, July 2014)

http://www.safety.fhwa.dot.gov/speedmgt/ref_mats/eng_count/2014/reducing_speed.cfm

Figure 3.10.1. Speed Hump with Bicycle Lane and On-Street Parking
(Source: Scott Batson)

APPROPRIATE APPLICATION

Appropriate Application – Speed Hump	
Type of Street	<p>Appropriate for a residential local street or any street where the primary function is to provide access to abutting residential property (see Figure 3.10.2)</p> <p>Appropriate for a street that provides access to a school, park, or community center</p> <p>Also appropriate for neighborhood or residential collectors</p>
Intersection or Roadway Segment	<p>Placed at a midblock location, and not near an intersection; as an example, Pennsylvania recommends a distance of 150 feet from an unsignalized intersection and 250 feet from a signalized intersection</p> <p>Should not be placed on a sharp curve; ITE <i>Guidelines for the Design and Application of Speed Humps</i> recommends a minimum horizontal curve radius of 300 feet (see Figure 3.10.3)</p>

Roadway Cross-Section	<p>Can be used on a single-lane one-way street or two-lane two-way street; should stretch across only one travel lane in each direction</p> <p>Typically installed on a roadway with an urban cross-section (i.e., curb and gutter)¹¹</p> <p>Typically placed one foot from a curb for drainage or six inches from the edge of a non-curbed roadway</p> <p>A speed hump can be applied on a cross-section both with and without sidewalks or bicycle facilities</p>
Speed Limit	<p>Appropriate if posted speed limit is 30 mph or less (per <i>ITE Guidelines for the Design and Application of Speed Humps</i>); many jurisdictions adhere to ITE maximum (e.g., South Carolina, Pennsylvania); some use a 25 mph ceiling (e.g., Delaware)</p> <p>Generally not appropriate when the pre-implementation 85th percentile speed is 45 mph or more</p>
Vehicle Traffic Volume	<p>Appropriate if daily traffic volume is relatively low; as examples, Pennsylvania sets a maximum daily volume of 3,500; South Carolina uses a maximum of 4,000; Pasadena, CA (41) uses a daily volume maximum of 4,000, with at least 1,000 vehicles in each direction</p> <p><i>ITE Guidelines for the Design and Application of Speed Humps</i> recommends consideration only if no more than five percent of the overall traffic flow consists of long-wheelbase vehicles</p>
Emergency Route	<p>Generally not appropriate for a primary emergency vehicle route or a street that provides access to a hospital or emergency medical services; speed cushion and speed table are similar vertical measures that could be appropriate</p> <p>An emergency vehicle can cross a properly designed speed hump but at a slow speed</p>
Transit Route	<p>Generally not appropriate for a bus transit route but examples of speed humps on bus routes do exist; a speed table and speed cushion are similar vertical measures that could be appropriate</p>
Access Route	<p>Not appropriate along the primary access to a commercial or industrial site</p>
Grade	<p>Can be installed on, or beyond, a crest vertical curve only if there is adequate stopping sight distance or warning signs are provided</p> <p><i>ITE Guidelines for the Design and Application of Speed Humps</i> recommends consideration only on a street with a grade of 8 percent or less (see Figure 3.10.4); many jurisdictions adhere to that maximum (e.g. Pennsylvania, South Carolina) but others follow a lower value: Delaware – 6 percent; Minnesota and Pasadena, CA -5 percent</p>

¹¹ If the street does not have curbing, an obstruction such as signing, flexible delineator posts, or bollards may be necessary to discourage a motorist from driving around the hump. Potentially hazardous objects (e.g., rocks, boulders) should not be used.

Figure 3.10.2. Speed Hump on Residential Neighborhood Street
(Source: Lucy Gibson)

Figure 3.10.3. Speed Hump Along Horizontal Curve
(Source: Scott Wainwright)

Figure 3.10.4. Speed Hump on a Grade
(Source: Scott Wainwright)

EFFECTS AND ISSUES

Effects and Issues – Speed Hump	
Vehicle Speed	<p>Single speed hump reduces vehicle speeds to the range of 15 to 20 mph when crossing the hump; speed reduction effects decline at the rate of approximately 0.5 to 1 mph every 100 feet beyond the 200 foot approach and exit of a speed hump; in order to retain slower vehicle speeds over longer distance, series of speed humps is needed (see Figure 3.10.5)</p> <p>ITE <i>Guidelines for the Design and Application of Speed Humps</i> recommends spacing of 260' to 500' to keep 85th percentile operating speed between 25 and 30 mph; some jurisdictions have refined guidelines:</p> <ul style="list-style-type: none"> • Pennsylvania – spacing between 250 and 600 feet • South Carolina – spacing of no less than 350 feet • Virginia – spacing of approximately 500 feet, clear visibility of 200 feet, and placement no closer than 200 feet from an intersection • Pasadena – speed hump series only on street segment that is at least 1,200 feet in length and traffic signals or Stop signs are at least 1,200 feet apart <p>Proper placement of initial speed hump in a series is significant; ITE <i>Guidelines for the Design</i></p>

	<p><i>and Application of Speed Humps</i> recommends that the first speed hump in a series be normally located in a position where it cannot be approached at high speed from either direction; to achieve this objective, it is typically installed within 200 feet or less of a small-radius curve or Stop sign or, if installed on a street with a significant downgrade, at the top of a hill</p> <p>Refer to Module 4 for additional data</p>
Vehicle Volume	<p>As single installation, there is little traffic diversion from the street; as part of a series, typical volume reductions of 20 percent observed</p> <p>Refer to Module 4 for additional data</p>
Pedestrian Safety and Mobility	<p>Not a preferred location for a crosswalk Refer to Module 6 for additional discussion</p>
Bicyclist Safety and Mobility	<p>Bicyclist safety should not be affected; some jurisdictions use maximum street grade of 5 percent on a street with a speed hump if designated as a bicycle route</p> <p>Bicyclist can negotiate speed hump with little delay or discomfort; it is also possible for a bicyclist to bypass a speed hump by passing through the gap between the hump and the curb and gutter</p> <p>Refer to Module 6 for additional discussion</p>
Motorist Safety and Mobility	<p>Speed effects of a single or series of speed humps are greater than for any other traffic calming measure with the exception of route diversions that eliminate a particular traffic movement</p> <p>Produces sufficient discomfort to a motorist driving above the speed hump design speed to discourage speeding</p>
Emergency Vehicle Safety and Mobility	<p>Typical delay for a fire truck is in the 3 to 5 second range; for an ambulance with a patient, delay can be as much as 10 seconds</p> <p>Refer to Module 5 for additional discussion</p>
Large Vehicle Safety and Mobility	<p>Typical delay for a large commercial vehicle is in the 3 to 7 second range</p> <p>Refer to Module 5 for additional discussion</p>
Accessibility of Adjacent Property	<p>Does not typically require removal of any on-street parking or affect accessibility of adjacent property (see Figure 3.10.6)</p>
Environment	<p>Potential for increased noise due to vehicle braking and accelerating and to the vibration of loose items in truck beds or trailers</p>
Design Issues	<p>Placement factors include vertical and horizontal alignment of the street, proximity to the nearest intersection, location of driveways and on-street parking, presence or absence of street lighting, location of designated pedestrian crossings, drainage, and utility access points (drains, valves, etc.)</p> <p>Should not require relocation of above- and below-ground utilities</p> <p>May not be appropriate on a roadway where drainage gutter or flow of water is in the center of the roadway; drainage and hydraulic impacts need careful evaluation</p>

Figure 3.10.5. Series of Speed Humps
(Source: City of Stockton, California)

Figure 3.10.6 Adjacent to Speed Hump
(Source: Lewis Grimm)

ADDITIONAL DESIGN CONSIDERATIONS

ITE provides specific design and application guidance for speed humps; refer to *Guidelines for the Design and Application of Speed Humps*.

ITE guidelines specify a speed hump that is 12 feet long (in the direction of travel) and 3 inches in height.

A sample design for a speed hump is presented in Figure 3.10.7.

DELAWARE DEPARTMENT OF TRANSPORTATION
TYPICAL SPEED HUMP

NOTE:
1. ALL SIGNING AND STRIPING SHALL CONFORM TO THE LATEST EDITION OF THE DE MUTCD.

Figure 3.10.7. Sample Design for Speed Hump
(Source: Delaware Department of Transportation)

In addition to concerns about safety in the area of the Hill Street underpass, the Hill Street Condo Association members are requesting that crosswalk lines be painted in at 3 or 4 locations

-  - across Manchester at Effinger
-  - across Manchester at Mill Race
-  - across Mill Race at Hill
-  - perhaps across Hill at Arboretum parking area

Document No.

**EASEMENT
NATURAL GAS**

The undersigned **City of Baraboo, a Wisconsin Municipal Corporation, (hereinafter called the "Grantor")**, in consideration of the sum of one dollar (\$1.00) and other good and valuable consideration, receipt of which is hereby acknowledged, does hereby grant, convey and warrant unto **Wisconsin Power and Light Company, a Wisconsin corporation, (hereinafter called the "Grantee")**, the Grantee's successors and assigns, the perpetual right and easement to construct, install, maintain, operate, repair, inspect, replace, add, relocate and remove the Designated Facilities, as defined below, upon, in, over, through and across lands owned by the Grantor **in the City of Baraboo, County of Sauk, State of Wisconsin**, said "Easement Area" to be **twenty (20)** feet in width and described as follows:

See Exhibit "A" for a legal description and Exhibit "B" for a depiction of the Easement Area, both attached hereto and made a part hereof.

This easement is subject to the following conditions:

1. **Designated Facilities:** This easement is for underground natural gas line and underground communication line facilities, including but not limited to pipelines with valves, main and service laterals, and any other components as Grantee may select for use in the transmission and distribution of natural gas products or communication signals (collectively, the "Designated Facilities").
2. **Access:** The Grantee and its agents shall have the right of reasonable ingress and egress to, over and across the Grantor's land adjacent to the Easement Area.
3. **Buildings and Structures:** The Grantor agrees within the Easement Area not to construct or place buildings, structures, or other improvements, or place water, sewer or drainage facilities; all without the express written consent of the Grantee.
4. **Landscaping and Vegetation:** No plantings and landscaping are allowed within the Easement Area that will interfere with the easement rights herein granted. The Grantee has the right to trim or remove trees, bushes and brush within the Easement Area without replacement or compensation hereinafter. The Grantee may treat the stumps of any trees, bushes or brush to prevent re-growth and apply herbicides in accordance with applicable laws, rules and regulations, for tree and brush control.
5. **Elevation:** After the installation of the facilities and final grading of the Easement Area, the Grantor agrees not to alter the grade of the existing ground surface by more than six (6) inches or place rocks or boulders more than eight (8) inches in diameter, within the Easement Area, without the express written consent of the Grantee.
6. **Restoration and Damages:** The Grantee shall restore, cause to have restored or pay a reasonable sum for all damages to property, crops, fences, livestock, lawns, roads, fields and field tile (other than trees trimmed or cut down and removed), caused by the construction, maintenance or removal of said facilities.
7. **Rights not granted to the Grantee:** The Grantee shall not have the right to construct or place fences, buildings or any other facilities other than the above Designated Facilities.
8. **Reservation of use by the Grantor:** The right is hereby expressly reserved to the Grantor, the heirs, successors and assigns, of every use and enjoyment of said land within the Easement Area consistent with rights herein granted.
9. **Binding Effect:** This agreement is binding upon the heirs, successors and assigns of the parties hereto, and shall run with the lands described herein.

The City of Baraboo, Wisconsin

Background: The DNR requires that local units of government review and approve an annual report called the Compliance Maintenance Annual Report. This report assesses the need for consideration of, or construction at, wastewater facilities and in collection systems. The scoring system for the report is based on a letter type of grade. From the nine categories scored, we received an “A” in eight sections and a “B” in the remaining one. The B was due to exceeding the 90% Biological Oxygen Demand (BOD) the plant’s designed influent loading. September thru December saw increased effluent flow and increased strength of influent BOD. The increased BOD is attributed to the centrate from the biosolids processing being “dirtier” than normal. The staff continues to make adjustments to improve the centrate quality.

Again the crew does an outstanding job with operating and maintaining the treatment facility and collection system. We continue to be fiscally responsible and maintain low sewer rates.

The Public Safety Committee reviewed this report and unanimously recommended its approval.

Fiscal Note: ☒ *Not Required* ☐ *Budgeted Expenditure* ☐ *Not Budgeted*
Comments

Resolved, by the Common Council of the City of Baraboo, Sauk County, Wisconsin:

That the 2020 Compliance Maintenance Annual Report for the Water Resource Recovery Facility and collection system be hereby approved.

The City of Baraboo, Wisconsin

Background: The Water Resource Recovery Facility (WRRF) was designed for a specific wastewater volume and loading capacity. In 1986, The Sanitary Sewer Utility established a “Reserve Capacity Assessment” (RCA) to be charged for any NEW service connection to the City’s existing sanitary sewer system. As a result, the assessments collected help to offset costs associated with future improvements/upgrades needed to the WRRF. The RCA fess shall be based on one residential equivalency connection (REC). City ordinance defines what the REC will be for any other facility that does not meet the one residential unit criteria; for example, a hotel be 0.20 REC per each room. The proposed \$650/REC corresponds to the maximum fee allowed by the existing Agreement with the Town of Baraboo Sanitary District No. 1.

The Public Safety Committee reviewed this matter at their June 14th meeting and unanimously recommended this change to the Official Fee Schedule.

Fiscal Note: (✓ one) [☒] **Not Required** [☐] **Budgeted Expenditure** [☐] **Not Budgeted**
Comments: The Sanitary Sewer Utility has not increased this assessment since 1991.

Resolved, by the Common Council of the City of Baraboo, Sauk County, Wisconsin:

To approve the changes in the Utilities Fees on the City’s Official Fee Schedule, as follows:

- Reserve Capacity Assessment – increase to \$650 (presently \$450) per Residential Equivalent Connection.

Offered by: Public Safety Committee

Approved: _____

Motion:

Second:

Attest: _____

The City of Baraboo, Wisconsin

Background: As a result of the recent closure of LSC Communications (formerly RR Donnelley) and the corresponding loss of revenue to the Water Utility, the Utility filed Conventional Water Rate Increase Application on August 25, 2020 to the Public Service Commission of Wisconsin (PSC). The PSC issued their final decision on the Rates and Rules on May 12, 2021 with an effective date for the new rates being June 24, 2021.

The Public Safety Committee reviewed this matter at their June 14th meeting and unanimously recommended these changes to the Official Fee Schedule.

Fiscal Note: (✓ one) [☒] Not Required [☐] Budgeted Expenditure [☐] Not Budgeted

Comments: Effected by the 2021 Water Rate Study – PSC Order 360-WR-103, which has an effective date of 06/24/2021.

Resolved, by the Common Council of the City of Baraboo, Sauk County, Wisconsin:

To approve the changes in the Utilities Fees on the City's Official Fee Schedule pursuant to PSC Order 360-WR-103, as follows:

- Hydrant Service charge from \$40 to \$55
- Bulk Water used from \$1.68 per 1,000 gallons feet to \$3.11 per 1,000 gallons.
- Reconnection Charges during business hours from \$40 to \$55
- Reconnection Charges after business hours from \$60 to \$85
- Temporary Meter Service charge from \$40 to \$55
- Final Billing/Real Estate Closing charge \$20 (New)
- Missed Appointment charge \$20 during business hours, \$35 for after hours (New)

~~2017-2021~~2021-2025

SCHOOL RESOURCE OFFICER MEMORANDUM OF UNDERSTANDING
between the City of Baraboo Police Department and the Baraboo School District

This Memorandum of Understanding ("MOU") is made and entered into on this ____ day of _____, ~~2017~~2021, by and between the City of Baraboo Police Department ("Police Department") and the Baraboo School District.

I. PURPOSE. The MOU formalizes the relationship between the participating entities in order to foster an efficient and cohesive program that will build a positive relationship between law enforcement and the youth of our community, with the goal of reducing crime committed by juveniles and young adults. This MOU delineates the mission, organizational structure, and procedures of the School Resource Officer Program ("SRO Program") as a joint cooperative effort between the Baraboo School District and the Police Department. The success of this program relies upon the effective communication between all involved employees, the principal of each individual Baraboo school, and other key staff members of each organization.

II. TERM. This MOU shall begin on July 1, 2017~~21~~ and end on June 30~~21~~, ~~2021~~25, unless terminated earlier as provided for herein. The parties may renew this MOU only by separate written agreement or addendum hereto, which must be executed by both parties.

III. MISSION, GOALS AND OBJECTIVES. The mission of the SRO Program is the reduction and prevention of school-related violence and crime committed by juveniles and young adults. The SRO Program aims to create and maintain safe, secure and orderly learning environments for students, teachers and staff. This is accomplished by assigning a Law Enforcement Officer employed by the Police Department ("SRO") to Baraboo School District facilities on a permanent basis. The goals and objectives of the SRO Program are designed to develop and enhance rapport between youth, police officers, school administrators and parents. Goals of the SRO Program include:

- Reduce incidents of school violence.
- Maintaining a safe and secure environment on school grounds.
- Assist the school district with the required safety evaluation and reporting as required under WI 2017 Act 143.
- Reduction of juvenile delinquency.
- Establish a rapport between the SRO and the student population.
- Establish rapport between the SRO and parents, faculty, staff, and administrators.
- Serve as a positive role model to instill in students good judgment and discretion, respect for other students, and a sincere concern for the school community.
- Promote citizen awareness of the law to enable students to become better-informed and effective citizens, while empowering students with the knowledge of law enforcement efforts and obligations regarding enforcement as well as consequences for violations of the law.

V. ORGANIZATIONAL STRUCTURE

A. SROs. The Police Department shall retain the exclusive right to exercise the customary functions of management of the SRO Program. To this end, the Police Department shall assign two (2) full time law enforcement officer to serve as SROs. The SRO will be certified by the State of Wisconsin and meet all requirements as set forth by the Wisconsin Department of Public Safety Standards and Training. The Police Department reserves the right to remove the SRO at any time if Police Department staffing levels fall below acceptable norms, during emergencies, when assistance is requested by other officers, or as needed in the discretion of the Police Department.

B. Operation of SRO Program. The day-to-day operation and administrative control of the SRO Program will be the responsibility of the Police Department. Responsibility for the conduct of the SRO, both personally and professionally, shall remain solely with the Police Department. The SRO is employed and retained by the Police Department, and in no event will be considered an employee of the Baraboo School District.

C. Contact Person. The Police Department and the School District shall each name a contact person who will monitor the program. Each principal will designate a contact person for the school to facilitate communication.

VI. PROCEDURES. The SRO is first and foremost a law enforcement officer for the providing law enforcement agency. The SRO shall be responsible for carrying out all duties and responsibilities of a law enforcement officer and shall remain at all times under the control, through the chain of command, of the law enforcement agency. All acts of commission or omission shall conform to the guidelines of the providing law enforcement agency directives. School officials should ensure that non-criminal student disciplinary matters remain the responsibility of school staff and not the SRO. Enforcement of the code of student conduct is the responsibility of teachers and administrators. The SRO shall reasonably refrain from being involved in the enforcement of disciplinary rules that do not constitute violations of law, except to support staff in maintaining a safe school environment. The SRO is not a formal counselor or educator, and will not act as such. However, the SRO may be used as a resource to assist students, faculty, staff, and all persons involved with the school. The SRO can be utilized to help instruct students and staff on a variety of subjects, ranging from alcohol and drug education to formalized academic classes. The SRO may use these opportunities to build rapport between the students and the staff. The Police Department recognizes, however, that the Baraboo School District shall maintain full, final, and plenary authority over curriculum and instruction in the School District, including the instruction of individual students. The parties recognize and agree that classroom instruction is the responsibility of the classroom teacher, not of the Police Department or SRO, and the Police Department and SROs shall not attempt to control, influence, or interfere with any aspect of the school curriculum or classroom instruction except in emergency situations.

VII. DUTIES AND RESPONSIBILITIES

A. SRO Responsibilities. The responsibilities of the SRO include, but are not limited to:

- Enforce the law and protect students, staff, and the public-at-large against unlawful activity.
- Follow the chain of command as set forth in the policies and procedures manual of the Police Department. School authorities and the parents of any child involved shall be notified as

quickly as possible when the SRO takes any direct law enforcement action involving a student, on-campus or off-campus, during school hours.

- Complete reports and investigate unlawful activities committed on /off campus.
- Coordinate, whenever practical, investigative procedures between law enforcement and school administrators.
- Abide by all applicable legal requirements concerning interviews and searches should it become necessary to conduct formal law enforcement interviews or searches with students or staff on property or at school functions under the jurisdiction of the Baraboo School District. The SRO will not be involved in searches conducted by school personnel unless an unlawful act is involved or unless school personnel require the assistance of the SRO because of exigent circumstances, such as the need for safety or to prevent flight. Formal investigations and arrests by law enforcement officials will be conducted in accordance with applicable legal requirements.
- Take appropriate enforcement action on unlawful activity as necessary.
- Wear the Police Department issued uniform with all normal accessories and equipment, including a taser, OC and firearm, and utilize a marked patrol vehicle.
- Confer with the principal to develop plans and strategies to prevent and/or minimize dangerous situations on or near the campus or involving students at school-related activities.
- Comply with all laws, regulations, and school board policies applicable to employees of the School District, including, but not limited to laws, regulations and policies regarding access to confidential student records and/or the detention, investigation, and searching of students on school premises, provided the SRO shall under no circumstances be required or expected to act or in a manner inconsistent with their duties as law enforcement officers. The use of confidential school records by the SRO shall be only as allowed by law.
- Provide information and respond to questions about law enforcement to students and staff.
- Develop expertise in presenting various subjects, particularly in meeting federal and state mandates in drug/alcohol abuse prevention education, and provide these presentations at the request of the school personnel in accordance with the established curriculum.
- Attend school special events as needed as determined by the Police Department.
- Upon request and approval of the School District and Police Department, attend school special events as requested by the Baraboo School District but not determined to be necessary by the Police Department (e.g., homecoming, football games, PTO meetings, etc.).
 - Any expenses generated due to the SRO working beyond the SROs regular workday pursuant to this subsection, any other Baraboo Police Officer in his/her absence, will be billed by the Police Department to the Baraboo School District as they occur.
- Attend law enforcement agency in-service training as required. Reasonable attempts will be made to schedule such training to minimize his/her absence from school on an instructional day.
- Be familiar with all community agencies offering assistance to youths and their families such as mental health clinics, drug treatment centers, etc., and may make referrals when appropriate.
- Report schedule conflicts to the School District.
- Ability to be reassigned to other duties as needed due to school closure or shut down for any reason.
- Work with school staff to ensure all points of WI 2017 Act 143 are complied with in the schools they are assigned and throughout the district.

B. SRO Supervisor Responsibilities. The responsibilities of the SRO Supervisor include, but are not limited to:

- Coordinate the SROs work assignments.
- Ensure SRO compliance with Police Department directives.
- Coordinate scheduling and work hours of the SRO's (vacation requests, sick leave, etc.).
- Work with the schools to make any needed adjustments to the SRO program throughout the school year.
- Complete the SRO's annual performance evaluation. The SRO supervisor will request feedback from the schools designated contact person during the evaluation process.
- Make schedule and staffing adjustments due to school closure including virtual learning.

C. School Responsibilities. The responsibilities of the Schools include but are not limited to:

- Provide the SROs with a private, appropriately furnished and climate controlled office space at the High School and Middle School that can be secured and is reasonably acceptable to the Police Department. This shall include but is not limited to a desk with drawers, chair, filing cabinet for files and records which can be properly locked and secured, a telephone and computer.
- Provide a reasonable opportunity to address students, teachers, school administrators, and parents about the SRO program, goals and objectives.
- Shall seek input from the SRO regarding criminal justice problems relating to students and security issues.
- When school personnel discover weapons, drugs, alcohol, or the illegal contraband on school property, the SRO shall be notified as soon as reasonably possible. If no juvenile or criminal charges are to be filed and no administrative action is to be taken by the Schools, the contraband shall be confiscated by the SRO according to Police Department policy.
- School personnel shall timely notify the SRO with the names of specific individuals who are not allowed on school property, and shall notify the SRO of any anticipated parental problems resulting from disciplinary action taken against a student.
- Work cooperatively with the Police Department to make any needed adjustments to the SRO program throughout the year.
- Provide the Police Department with updated copies of all laws, rules, regulations, and school board policies applicable to employees of the School, including but not limited to laws, rules, regulations and policies regarding access to confidential student records and/or the detention, investigation, and searching of students on school premises.
- Ensure all school policies are up-to-date and compliant with state and local laws.

VIII. ENFORCEMENT. Although the SRO has been placed in a formal educational environment, he/she is not relieved of the official duties as an enforcement officer. The SRO shall intervene when it is necessary to prevent any criminal act or maintain a safe school environment. Citations shall be issued and arrests made when appropriate and in accordance with Wisconsin state law and department policy. The SRO and the Baraboo Police Department will have the final decision on whether criminal charges shall be filed.

IX. TERMINATION. This Agreement may be terminated by either party, with or without cause, upon sixty (60) day's written notice to the other party.

X. HOLD HARMLESS. The Baraboo School District, the Police Department agrees to indemnify, defend and hold harmless each other including its officers, agents, and employees against all claims, demands, actions and suits (including all attorney fees and cost) arising from the indemnitors performance of this MOU where the loss or claim is attributable to the negligent acts or omissions of that party. The Baraboo School District and the Police Department mutually covenant and agree that neither party will insure the actions of the other, and each party will assume its own responsibility in connection with any claims made by a third party against the Police Department and/or the Baraboo School District subject to the provisions herein

XI. NOTICE. Any notice, consent or other communication in connection with this Agreement shall be in writing and may be delivered in person, by mail or by email. If hand-delivered, the notice shall be effective upon delivery. If by email, the notice shall be effective when sent. If served by mail, the notice shall be effective three (3) business days after being deposited in the United States Postal Service by certified mail, return receipt requested, addressed appropriately to the intended recipient as follows:

Baraboo School District: Dr. Lori M. Mueller
Baraboo School District Superintendent
423 Linn Street
Baraboo, WI 53913

Baraboo, WI 53913

With a Copy to: City Attorney
City of Baraboo
~~135-4th Street~~ 101 South Boulevard
Baraboo, WI 53913

XII. AMENDMENTS. Subject to applicable law and subject to the other provisions of this MOU, this MOU may be amended by the parties hereto, based on approval of the parties governing bodies, at any time by execution of an instrument in writing signed on behalf of each of party.

IN WITNESS WHEREOF, the parties have caused this MOU to be executed by their duly authorized representatives as of the day and year first above written.

Re: June 2021 Agenda

Old Business:

None

New Business:

Review/Approve resolution for 2020 Compliance Maintenance Annual Report
Review/Approve resolution for Water Utility changes to the City's Official Fee Schedule
Review/Approve resolution for Sewer Utility change to the City's Official Fee Schedule

Reports:

CMAR - The DNR requires that local units of government review and approve an annual report called the Compliance Maintenance Annual Report. This report assesses the need for consideration of, or construction at, wastewater facilities and in collection systems. The scoring system for the report is based on a letter type of grade. From the nine categories scored, we received an "A" in eight sections and a "B" in the remaining one. The B was due to exceeding the 90% Biological Oxygen Demand (BOD) the plant's designed influent loading. September thru December saw increased effluent flow and increased strength of influent BOD. The increased BOD is attributed to the centrate from the biosolids processing being dirtier than normal. The staff continues to make adjustments to improve the centrate quality.

Again the crew does an outstanding job with operating and maintaining the treatment facility and collection system. We continue to be fiscally responsible and maintain low sewer rates.

Water Rate Increase – Rate increase will take effect June 24, 2021. We will not process any final read between 6/24/21 & 6/30/21, so the true effective date will be July 1st. The new rate file is available at City Hall and City Service Center.

Sewer Connection Fee - The Water Resource Recovery Facility (WRRF) was designed for a specific wastewater volume and loading capacity. In 1986, The Sanitary Sewer Utility established a "Reserve Capacity Assessment" (RCA) to be charged for any NEW service connection to the City's existing sanitary sewer system. As a result, the assessments collected would help to offset costs associated with future improvements/upgrades needed to the WRRF. The RCA fees shall be based on one residential equivalency connection (REC). City ordinance defines what the REC equivalent

will be for any other facility that does not meet the one residential unit criteria. i.e. A new hotel would have 0.20 REC per each unit.

We are requesting an increase from \$450 to \$650. \$650 is what we presently charge the Baraboo Sanitary District for new connections. For some reason we have no language about connection fees in our agreement with West Baraboo.

Sewer Cleaning – The crew has finished the 2021 sewer cleaning and root cutting.

Valves/Hydrants – The crew is making good progress on the maintenance program for hydrants and valves. We will have a contractor in this summer to paint another 70 fire hydrants.

Water Disconnection – We had our first disconnection day on May 18th. The number of customers and dollars in arrears weren't too different from pre-Covid-19.

MAY 2021 STREET DEPARTMENT STATUS REPORT

Staffing Updates

- No new staffing to report. DPW staff has been continuing with the “split shift” that we have used since the beginning of COVID.

Activity Report

- **Brush:** We have been sending out the brush chipping crew as a “filler” task when we have a couple crew members available, but not time for them to start a completely different project. Thus far, responding to requested brush pickups on an as requested basis, and addressing those piles when we have accumulated a list of 10-12 requests has been working. Some residents are still learning that the site is closed when they arrive at the site and some have questioned the need for closure. Explanation and education have left them with an understanding for the closure.
- We have had a few incidents where residents have contracted a tree removal service but requested the contractor to leave the brush for the city to pick up in an attempt to save money. I understand the desire to save money by the resident but our brush pickup program clearly states that the “City will not pickup contractor generated brush”. Hoping this issue is resolved via “word of mouth” like the closure of the site. If not, a “POLICY” or “ORDINANCE” may need to be created for enforcement purposes.
- We are happy to report that we have now gone 5 consecutive weekends without brush being disposed at the brush site that is clearly marked closed.
- **Leaf Pickup:** Leaf pickup for Spring 2021 is complete. Next scheduled leaf pickup is scheduled to begin October 18th, 2021.
- **Yard Waste Disposal Site:** Overall the site has been manageable and the users cooperative. We have unfortunately had a couple incidents of brush/garbage being dumped at the yard waste site but PD was able to identify the individuals promptly by utilizing the photos from the site cameras, and have had the individuals come pick up the un-allowed material for proper disposal.
- **Traffic Striping:** Traffic striping has been ongoing since the start of the warm/dry weather. We will be painting crosswalks, centerlines, parking lots, and No Parking areas. The city will be going away from painting driveway ends yellow in residential areas. We are not obligated to provide that service and have found on occasion that the area painted has been extended without our knowledge.
- **Street Sweeping:** Street sweeping is ongoing throughout the Spring/Summer/Fall months with early morning sweeping downtown every other Friday or the day prior to special events. Currently we have swept all streets and alleys at least once. Fortunately, it has been a relatively

dry Spring and sediment hasn't been washed and spread causing the need for additional sweeping hours.

Project Updates

- **Alleys:** We have our first alley (2/3 – West to Center) rough prepped for future paving. We began cutting the 6-7 Birch to West alley on 6/1 and expect to have that rough prepped by weeks' end. Our plan is to then move to the 8th Ave/ Summit Alley and prepare for pavement. Hopefully we can get on the paving schedule and have the first three alleys paved, shouldered, and complete by the end of June.
- **Intersection Repairs:** Engineering staff is evaluating the intersection of Ott Lane/Jefferson and Parkside/ Spruce Drive to determine the feasibility of asphalt and concrete repairs. Both intersections have suffered serious pavement degradation due to the lack of drainage.
- **Street Maintenance:** We have the "usual" slate of maintenance items to be addressed throughout the 2021 road construction season. Crackfilling, asphalt patching, and stormsewer maintenance will be performed again this year. Due to the nature of the work and the startup/shutdown process, we may be implementing a 4-10 weekly work schedule to maximize the "time on site" for the crew assigned.

Informational items

- We are assembling a list of areas in which we will be requesting No Parking being designated. We have found some areas to be troublesome when entering or exiting alleys with our refuse/recycling equipment and plow equipment. Many times due to vehicles being parked across from the end of these alleys, our equipment is forced to drive over the grass area of the terrace to safely exit or enter the alleys. I will bring a list of the areas with distances requested so we can add all areas to the ordinance in one session..... if approved.

Thank you, The DPW Crew
